The community of St. Joseph's, since its inception in 1916, constantly strives to enrich the lives of students and faculty by allowing freedom for personal expression and acceptance. Through open communication and innovative teaching methods we attempt to plant in each student the building blocks of inquiry and the joy of knowing their dreams can be attained if only they stretch out a hand to grasp it.

Here the cornerstone of success has been built. The framework has been set and layout plans completed. From here we must build the future of our dreams.

Life is like a city and our house in the city is our own life and what we make of it. St. Joseph's College is the drawing board we use to help plan our life. We, the Seniors of St. Joseph's College, are the construction workers who build our house. Just as the construction workers need help to build a house, so too do we.

The administration, as general contractors, help organize our construction and help things run smoothly. The Faculty are the architects who show us different plans for our house. The plant maintenance assures us that our drawing board always has the necessary supplies.

The activities we participate in at St. Joseph's are much like great centers in the city of life. The clubs we have are recreational facilities, events, such as the parties, plays and concerts are our cultural centers, and the sports events are arenas and stadiums.

There are others involved in the building of our house who are just as important. The underclassmen are like apprentices who are learning to build a house of their own. The yearbook staff are the chroniclers who record the process and keep it for prosperity. The advertisers subsidize our building financially. Our parents are sponsors who provide the foundation for our building.

Assembled together these elements provide a memorable and vital basis for building a future.

Most marketing surveys show . . .

Have I got the candidate for you!

Whats love got to do with it?

We'll always be bosom buddies!

And when I'm elected, I will

Do you believe this guy?

If you could see what I see!

Builders of

Our Future

You're not paying for the lunch this time!

Food for thought

Where's the beef?

Who are you for- Mondale or Reagan?

Oh, Edgar (Allen Poe) you say the funniest things.

Oh, I'm so shy

Is this what they mean by equality of sex roles?

Who just whispered sweet nothings in-your ear?

Didn't you say the best things in life are free?

Hey dudes!

Ahh . . . memories

I'm motivated now!

Do you really want to know what I'm thinking?

Please . . . it's Monday morning!

You want me to answer that truthfully?

What do you mean "I told you never to call me here?"

Oh really?

Not Now!

We knew you were coming!

no really . . . it happened!

Computers excite us.

The Time We Have Spent At St. Joseph's Has Provided The Groundwork For Building Our Future.

Part Of The Time Was Spent Learning The Basic Conceptual Calculations Necessary To Survive And Prosper In Our World.

Yet Before We Could Go Forth, We Had To Diagram That World - A Job For The Architects, The Teachers.

Each Architect Starts With The Elements Of Design and Adjusts And Interprets Until Each Drawing Satisfies The Requirements Of The Intended Structure. A Few Are Able, With Sensitivity And Patience, To Create A Masterpiece - A Building That Not Only Fulfills The Essentials But Beckons You Inside. Once Inside You Feel A Sense Of Wonder, Curiosity, And Security; For You Know, That No Matter Where You Venture Forth, You Will Always Have This Building To Come Back To.

With His Patience And Thoroughness, Mr. Adornato Has Created This Building. He Has Given Us A Mathematical Structure From Which We Can Securely Confront The Challenges We Will Encounter In Our Lives. He Is An Exemplary Architect For Our Future Plans. Thank You Mr. Adornato For All Your Enthusiasm And Perseverance.

Dear Kelly, No words can be more eloquent then to say "We Love You" Congratulations!

Remember When . . .

Mary Burns . . . M.B. & K.P. passed out on the way home from a party & woke up on Indian Road; M.B. & S.G. went to church; M.B., S.G., & K.P. spent hours talking about "things"; S.G. quite smoking and never cut class (until she met M.B.).

Karen Collins . . . I drove the wrong way down a one-way street and ended up in the path of a bus; During the first week of school, freshman year, I talked to a complete stranger for 3 hours and made a new friend; Nancy & I made the bus going to see "Joseph" turn off the expressway because we had to use the bathroom; Nancy & I traveled all the way to Kings Point to see a St. Joe's b-ball game only to discover that we were 2 hours and one full game LATE; My most serious "problem" was trying to get off work early for Boardy Barn Happy Hour!!?

Donna DeTomaso . . . Sandi, remember the high-speed chase and wine & cheese and who didn't leave a tip. And what about all those cringes? You know the confused one was right, we are the "little detectives." Let's keep it that way!

Mary Edwards . . . We went skiing up at Gore Mt.; JoAnne and I telling stories in Children's Lit., cheerleading and basketball & falling asleep at the opera in NYC! When we got back Fred Ford got a ticket at the train station because we made him park in a N.P. zone so we wouldn't get wet from the rain! But most of all, remember the fun we had in college, and the terrific friends we've made!

Donna Fiore . . . We shared our college days at St. Joseph's.

Laura Geelan . . . Karen told the cop it was very rude of him to interrupt her story.

Christine Gusmerotti . . . SWAT tactics seemed appropriate!; The "stewardess" and "that girl" made many a dull moment hysterical!; cheap champagne went untouched; The "No-No's" and the "Heiney's" hit St. Joe's!; Mary counted (10, 9, 8 . . .) - Oh no!!

Janece Hausner . . . We danced through the streets of Rome, Italy with Laura, Phyllis and Margie; The very unusual photo session with Blade's Automatic Timed camera.

Bonnie Lynn Iacobelli-Wright . . . You cut your spaghetti; the first time you put a napkin on my lap; the Toyota was accident free; we sat under the tree and you showed me the meaning of the rocks; The dot and the arrow began; We climbed the beach of forever.

Mary Indelcato . . . we played centipede, bartended, sang off key; when we sawed off the stage, ate a "Main Street", made a van into a bunny; when we destroyed an overhead transparency, silk screened, put on our "bobby socks"; when we skied on a bunny hill, drooled at Chippendale's, walked a hundred city blocks; when the mad dog wasn't, John Volby song, the basketball team won; or when we all met, became friends, and grew up together.

Marlan Koster . . . you were so willing to do ANYTHING for three credits that you took Dance?!

Betty Kronbach . . . you finished your thesis and handed it in. It was RELIEF, pure and simple.

Barbara Lakatos . . . we decorated the lounge with toilet paper for the M*A*S*H party; we ate lots of ice cream instead of yelling about red curtains; and calling Sal at midnight for test answers.

Patricia Leonard . . . I was nervous about how I'd be graded; exams, reports, and speeches I hated. But, the frequent headaches have all faded and the effort paid off, 'cause I've graduated!

Jennifer Logan . . . Mike and Chris, remember when we started the first Columbus Beach hospital? Community beds. Rich, remember one fine and memorable day in Jamaica? Setting is everything. Remember when some nameless faculty members started a water fight at 2 in the morning; and all I heard, running toward the parking lot one blizzard night at Stony Brook, were the wobbly cries of two guys calling "JEEENNY" amid hysterical laughing?

Elleen Nolan . . . I remember driving to school for the first time in September 1981 and wondering, like all freshman, if I was doing the "right" thing. Well, four years later, I now know I did the "right" thing, and I've met some wonderful people along the way.

KellyAnn O'Hanlon . . . the blue dots ruled!; forty people crowded the lounge; we learned the truth about Middle Village; we lobbied for budget cuts 3-1-82; we got our garters; Al and Steve would leave me notes; Al went to the "movies" while Steve and I ate pizza on the corner; we crashed a wedding at N.I.; we scared Holly with Christmas lights in March!; we NEVER thought we'd get through THESIS the first time around; we didn't think we'd make deadline; we celebrated our "99's" with fried mozzarella sticks; and Barbara L. stunned the A.C. with the fatal question, "isn't this a dead subject?"

Vince Panicola . . . I got up on one ski?; how could you, Keith, hid? the camera; the nucleus was formed; we road tripped to Candlewood; we hit the sailboat after the Oysterfest; and we said we would never grow apart, let's never forget that!

Donald J. Sheehan Jr. . . . remember when we started; remember when we finished; and remember everything in between.

John Vallone Jr. . . . "I first realized how many were the false opinions that in my youth I took to be true, and thus how doubtful were all the thing that I subsequently built upon these opinions. From the time I became aware of this, I realized that for once, I had to raise everything in my life, down to the very bottom, so as to begin again from the First Foundations, if I wanted to establish anything firm and lasting in the sciences." Rene Descartes

Andrew J. Waski . . . remember when you could find a parking space close to the school?

Rosemary Welsh . . . I remember when I got my new nickname at Feather's party from the "gang"; the standing ovations at Maritime which were great for the ego; and the many good times with the kickline, especially Feather and Dad, Shadow, Lacey, Buddy, Teri, and Char.

Kelly Zappulla . . . I fractured my foot playing badminton a week before "Gypsy."
